

## The future is electrical!

The future is electrical!

Join in Germany's greatest event in the sector of electrical mobility in 2009! The "First German Electric Vehicle Conference", June 16th/17th '09 in the Old Parliamentary Building in Bonn aims to establish solid networks in the rapidly developing field of Electrical Mobility. Coming from different areas such as automotive companies, suppliers, energy provider companies, politics, science and engineering - the conference will be the main venue to meet advanced actors presenting and discussing ways to the future of E-Mobility.

IEV ARYANA is participating in first German Electric Vehicle Congress June 16th to 17th 2009, World Conference Center, Bonn
